Full Stack Web Developer

PROFILE

Self-motivated Web Developer with high level of experience working on multiple projects. Passionate and hardworking with penchant for meeting deadlines. Interested in role with company promoting best practices and offering diverse customer projects

WORK EXPERIENCE

Web Developer

Ultimate Power Myanmar (Startup) | 2016-2018

- Created site layout and user interface using HTML and CSS.
- Hands-on experience using UNIX and Apache web servers.
- Used programming capabilities in PHP, SQL and JavaScript and other libraries as needed.
- Established web hosting for site and uploaded site files to hosting account
- Designed, implemented and monitored web pages and sites for continuous improvement
- Determined coding requirements for site creation including ecommerce capability and specialized scripts

Web Developer / Mid-Level

ABC-MIB (Head Office IT) | 2019-2020

- As a web developer at ABC-MIB, I was responsible for project and time management for junior developers. During my time at ABC-MIB, I gained valuable experience in corporate working , teamwork , communication and management.
- While working at ABC-MIB, I collaborated with a team to develop an e-commerce application using Laravel and Vue.js. My role included contributing to the overall design and functionality of the application, as well as implementing specific features such as customer management , product management and order tracking.

Full Stack Web Developer

Freelance | 2021-Current

- While freelancing, I developed a point-of-sale platform and an e-commerce website for clients. These projects involved using a range of technologies, including Laravel, Vue.js, React.js, Next.js and payment gateway integrations. I was responsible for the full development cycle, from designing the user interface to testing and deployment
